

Custom and Regional Programs

Custom Programs

Lincoln Electric can offer a Customized Seminar for your particular organization based upon your specific needs. The training would be conducted by our Technical Training group, Application Engineering group and/or field sales personnel. Contact Lincoln Electric to discuss the possibility of creating and conducting a customized training program for your company. Specific topics, length of program and dates to be determined.

Where Is It?

The customized programs can be held at Lincoln Electric's corporate training facilities in Cleveland, Ohio. Or they can be held at other locations, including, but not limited to, Lincoln Electric District Sales offices, educational institutions or customer locations.

Requirements

Depending upon the course, there may be minimum attendance and/or fee requirements.

Regional Programs

Lincoln Electric conducts several training seminars at various locations around North America that have been arranged by our local District Sales offices. Courses vary in length from 1/2 day to one week. These programs cover various topics, including, but not limited to, State Welding Educator Workshops, Nextweld® technology seminars, Power Wave® AC/DC 1000® seminars, Distributor Training programs and Service School programs.

Requirements

Depending upon the course, there may be minimum attendance and/or fee requirements.

For more information on course dates and type(s) of training being provided locally, please contact your Lincoln Electric District Sales office.
